

# M156 Proposed cottage at Bridge of Weir

## Introduction

Contractors submitted tenders for a cottage for Alfred Allison Todd in September 1898. However, none of these tenders appears to have been accepted and no payments are recorded, suggesting the work was abandoned. Neither the proposed location in Bridge of Weir nor the design for the cottage is known.

Honeyman, Keppie & Mackintosh designed a house for Todd, Headington, at Bridge of Weir, built between 1902 and 1905.

**Authorship:** This is one of over 270 jobs carried out in the office of Honeyman, Keppie & Mackintosh (Honeyman, Keppie & Mackintosh from 1901) during Mackintosh's time there. Mackintosh undoubtedly worked on many of these, but there is no specific evidence for his involvement in this case.

**Status:** Unbuilt

## Chronology

**1898**

## Job Book

The job books of Honeyman & Keppie (later Honeyman, Keppie & Mackintosh) are now held by The Hunterian, University of Glasgow and include four volumes related to the Mackintosh period. The books were used by the firm to keep a project-by-project, day-by-day record of contractors, suppliers and expenditure. The name of a project and/or client is usually at the top of the left-hand page, followed by information about tradesmen who tendered. The name of the measurer (quantity surveyor) is usually at the top of the right-hand page, followed by information about payments to contractors and suppliers. All of the data for M156 is entered in the tables below.

Page numbering is not consistent in the job books. Sometimes a single number refers to a double-page spread and sometimes each page is individually numbered. Here, each image of a double-page spread is identified by the number given at the top of the left-hand page. (Images of all of the pages from the four job books can be found at [Browse Job Books](#), [Visit Book and Cash Book](#).)

The following information about M156 has been extracted from the job books:

Job book: 53061  
Page: 169

Job book: 53061
