

# M282 Repairs to Kelvinside Academy

## Introduction

Honeyman, Keppie & Mackintosh carried out minor pointing and repairs to stone work at the school. The work appears to have been carried out in May–June 1907; no dates are recorded in the job book for the work, but the preceding and following projects were entered in the job book in those months. In October 1908, the firm were paid a small sum by Kelvinside Academy. This probably corresponds to the work carried out. <sup>1</sup>

**Authorship:** This is one of over 270 jobs carried out in the office of John Honeyman & Keppie (Honeyman, Keppie & Mackintosh from 1901) during Mackintosh's time there. Mackintosh undoubtedly worked on many of these, but there is no specific evidence for his involvement in this case.

## Job Book

The job books of Honeyman & Keppie (later Honeyman, Keppie & Mackintosh) are now held by The Hunterian, University of Glasgow and include four volumes related to the Mackintosh period. The books were used by the firm to keep a project-by-project, day-by-day record of contractors, suppliers and expenditure. The name of a project and/or client is usually at the top of the left-hand page, followed by information about tradesmen who tendered. The name of the measurer (quantity surveyor) is usually at the top of the right-hand page, followed by information about payments to contractors and suppliers. All of the data for M282 is entered in the tables below.

Page numbering is not consistent in the job books. Sometimes a single number refers to a double-page spread and sometimes each page is individually numbered. Here, each image of a double-page spread is identified by the number given at the top of the left-hand page. (Images of all of the pages from the four job books can be found at [Browse Job Books, Visit Book and Cash Book.](#))
